Marquette, Wis.—The home of Joseph C. Calk, a farmer living west of Goodman, Wis., was completely destroyed early today and two daughters, Rosa, 5, and Sophia, 7, could not be reached in the burning flames and were burned to death.

RUM TREATY WITH BRITAIN IS SIGNED

(BY ASSOCIATED PRESS.)

Washington—The new rum treaty with Great Britain was signed today at the state department.

The treaty, which the United States and Sir Auckland Geddes, the retiring British ambassador, affixed their signatures to the agreement which provides for extension of the American limit of search beyond the three mile limit and permits British vessels to bring ships stores into American ports under certain conditions.

The treaty is required before the new arrangement becomes effective, but there are indications the two governments, pending formal approval, will follow a policy of leniency toward each other in dealing with the liquor question—until now one of the most serious to disturb British-American relations in recent years.

The treaty is to run for one year at the end of which period it can be terminated on three months' notice.

One clause in the treaty, by reason of "judicial decision or legislative action" the terms of the treaty are modified, the whole agreement is abrogated.

Conspiracy Charged That Evidence Is Suppressed in Mabel's Chauffeur Case

(BY ASSOCIATED PRESS.)

Los Angeles, Calif.—That there "appears to be a conspiracy" to suppress evidence in the hearing of Mabel Thel, Janesville, charged with shooting Courtland S. Dines, Denver oil man, New Year's night was the statement made from the bench today by Judge J. Walter Hanby, hearing the case.

Judge Hanby said: "I am not at all satisfied with the testimony that has been given in this case. There appears to be a conspiracy on the part of the witnesses who have already testified to keep from the jury many things that the court should know about the case."

At Burns Girl's Bedside

The bedside of Mrs. Edith Burns, former companion of Mabel Thel, was the scene of the preliminary hearing of the case. Burns, who is now in the Denver hospital, was brought to the hearing by ambulance.

With the testimony of Mrs. Burns, who was at Miss Thel's home when the chauffeur left there to call for his employer, Judge Hanby said, the prosecution will rest its case. It was announced last night.

Greer probably will not be called to the stand by the defense, his attorneys said. In view of Dines' failure to testify directly that Greer was the man who shot him.

Forgetfulness of Witnesses

The minor question and the forgetfulness of important witnesses mentioned at yesterday's session. Justice Hanby denounced what he called an "omniscient conspiracy on the part of the witnesses to keep from the court many things that the court should know."

Two policemen testified over the strenuous objection of the defense to a flood of utterances alleged to have been made by Greer soon after the shooting in which he was quoted as saying he "hopped up" and "hopped up" and "hopped up" and "hopped up."

Asked whether "hopped up" referred to narcotics or liquor, the witness, repeating Greer's alleged remark, explained that he "hopped up" was another way of saying "flipped out."

All Russia Hears of Passing of Most Powerful Man of Revolution.

(BY ASSOCIATED PRESS.)

Moscow—"The body of Nikolai Lenin, late premier of Soviet Russia, was brought to Moscow this afternoon from the little town of Gorky in the distant suburbs where his struggle for life after a long illness ended last Monday."

On the shoulders of his comrades of the council of commissars, his coffin was carried nearly five miles through streets guarded by Soviet troops to the house of Unions, where it is to be in state until the funeral ceremonies.

The day was cold and dismal, but as the coffin was carried through the streets, the windows of the houses, the adjoining fences and all places of vantage off the thoroughfares on which all traffic was stopped, were crowded with thousands of silent onlookers.

More than 20,000 members of the parliament and the communist party and delegations from various departments and labor unions gathered at the railway station where the train bringing the body, decked with red and black ribbons, drew into the station quietly and promptly at one o'clock to the slow and solemn music of a funeral march played by military bands.

MC CORMICK FOUND GUILTY ONCE MORE, BACK TO WAUPUN

(BY ASSOCIATED PRESS.)

Chippewa Falls, Wis.—John Arthur Harrison Blake McCormick, former Ladsmith, Wis., grocer, today was found guilty for the second time on a charge of murdering his wife, and will be returned to the state prison at Waupun to spend the remainder of his life.

McCormick, a grocer at Ladsmith at the time of his wife's death, was the chief legate in the will of the dead woman. This will, had been executed only a few days before Mrs. McCormick left the dinner table complaining of pain and died 10 minutes later. It was shown that death was caused from strychnine poison and that she had taken it in medicinal capsules, the poison having been placed there by her husband.

A long trail of events covering Ladsmith, Grand Rapids, Mich., and other cities made the trial of nation wide importance. In October, 1917, McCormick was charged with the murder of his wife and sentenced to life in the state prison. Last fall the supreme court granted him a new trial. Judge William Burke Quinlan, of Marquette, presided at both trials. The murdered woman was a widow and her husband, a saloon keeper, had left her about \$50,000.

McCormick was sentenced to life in the state penitentiary to complete the life term imposed at the first trial. In addition, one day of each year will be spent by the prisoner in solitary confinement, the judge ordered.

Silk Tailed Thrush, "Bird of Disaster," Frightens Baltic Peasants

Frankfurt—Old inhabitants of the Baltic coast are shaking their heads doubtfully over the appearance of the silk-tailed thrush, known among the superstitious as the "bird of disaster."

It has been seen in these regions since the winter of 1913-14. Residents of East Prussia and other parts of the Baltic contend that it is a matter of historical record that the birds have been about in the winter of 1912, according to Napoleon's Russian campaign, and that their appearance on this edge of the Baltic in 1913-14 has been followed by famine, pestilence or war before the year was out. Early in 1914 the silk tailed thrush is said to have gone as far south as France.

GOODMAN BOUGHT HOSPITAL, Stirred up All Stoughton and Then Faded Away

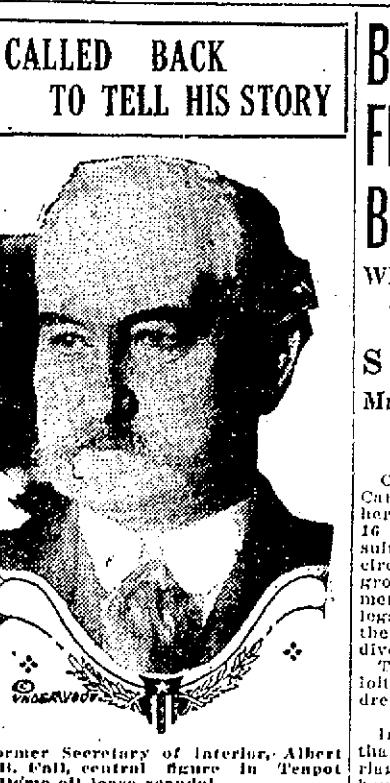

(SPECIAL TO THE GAZETTE.)

Stoughton—Shades of George Randolph Chester! Stoughton business-men who were here yesterday, were here for the purpose of making the announcement of the purchase of the Stoughton hospital, which included surgical apparatus and an ambulance.

All was done by a man who gave his name as Paul Goodman and declared he was from Milwaukee. He was a man of about 40 years of age, with a high forehead and a serious expression. He was wearing a suit and tie and was accompanied by a man who gave his name as Dr. M. Iverson of the Stoughton hospital and a deal was closed for its purchase, with Goodman giving a draft of \$5,000 on a Milwaukee bank as part payment.

He then bought furniture and bedding at local stores declaring he would send his check later to cover the bill. Goodman took possession of the hospital building, making the announcement of the purchase at a meeting of local physicians. He announced proposed improvements, purchase of an ambulance and a remodeling of a nearby residence as a home for nurses.

Sunday night he left for Madison after selling his automobile and has not returned. No man by that name was found to have money at the Milwaukee bank on which the draft was drawn. No one in Stoughton was able to supply information as to the whereabouts of Goodman and physicians are wondering whether the man who so completely won their confidence had perpetrated a hoax.

Former Secretary of Interior, Albert B. Fall, is expected to arrive from New Orleans today.

BOUGHT FOR \$300 FROM HER FATHER BY HER HUSBAND

WIFE CHARGES SHE HAS BEEN CHATTEL EVER SINCE MARRIAGE.

SEEKS DIVORCE

Mrs. Emma Carr of Beloit Files Suit With Unusual Charges.

Charging that her husband, Vernon Carr, Beloit, "purchased her from her father for \$300" when she was 16 years of age, Emma Carr filed suit for divorce in the Rock county circuit court Wednesday on the grounds of cruel and inhuman treatment. An answer denying the allegations of the wife was filed by the husband, indicating a contested divorce action.

"The couple were married in Beloit, Dec. 4, 1913 and have four children, the oldest 8 years of age."

"Treated as a Chattel."

In the complaint the wife charges that because of the fact "their marriage was a business deal, that he treated her as a mere 'piece of property' and that she was in his hands and in taking the place of a hired man on the farm," she now wants a separation. The documents allege the wife was "treated as a chattel rather than a wife, and this has been his attitude in his treatment of her ever since the day of their marriage."

Another paragraph alleges that when the wife wished to go to the home of her parents, the defendant refused and pointing to a gun over the door said, "That will keep you at home if nothing else will."

Children or Overalls.

Shortly after the marriage it is claimed that Carr told his wife "it was his desire to raise a large family and that she was to be his property to do that or put on overalls and get out in the field to work. The wife, it is stated, was forbidden to speak to other men, even the brother of the defendant, who resided at the Carr home and boarded there."

In his answer the defendant denies that he "bought" his wife but gave her \$300 for her freedom. He declared his daughter was leaving home at an early age, preventing his obtaining "her time until she was 18 years of age," this statement, according to the answer was pure to keep the good will and friendship of the parent, and not as barter for the plaintiff.

"Love" Animated Him.

A jealous nature is admitted by Carr with the statement, "if that be true, my jealousy has been animated by his great love for his wife and family."

Attorney Owen Rutland filed the complaint for the plaintiff and Judge John Clark, Beloit, the answer for the defendant.

The case will come up during the March term of the circuit court.

REPUBLICANS IN TAX COMPROMISE

Offer to Meet Democrats for Harmony—Kill Mellon Plan.

(BY ASSOCIATED PRESS.)

Washington.—Republican members of the house ways and means committee offered today to compromise with the democrats on the Mellon tax bill and to frame a non-partisan measure.

Representative Garner, Texas, ranking democrat on the committee, to whom the offer was made by Chairman Green, did not definitely commit minority members to a compromise.

The negotiations preceded the first consideration by the committee of the low rate schedule, and in the opinion of the democratic leaders, indicated any possibility of adoption of the rate proposals of Secretary Mellon, which President Coolidge has insisted must be kept intact.

Mr. Green indicated despite no actual acceptance of the offer by Mr. Garner, that the republicans would proceed in committee with a view to working out a plan acceptable to an ambitious purchase of an ambulance and a remodeling of a nearby residence as a home for nurses.

Sunday night he left for Madison after selling his automobile and has not returned. No man by that name was found to have money at the Milwaukee bank on which the draft was drawn. No one in Stoughton was able to supply information as to the whereabouts of Goodman and physicians are wondering whether the man who so completely won their confidence had perpetrated a hoax.

Snow Drifts Halt Traffic from Beloit

Drifts of snow two and three feet deep cover the Beloit-Janesville road in spots, making travel by auto hazardous and uncertain. A truck loaded with the majority of drift has been made, but some cars were unable to pull through. Many people ventured as far as Kellogg's nursery and, discouraged by the drifts, turned back. Several cars came through after great effort.

No cars were stalled for any length of time Wednesday morning. Nearly 20 cars were stalled in the deep snow Tuesday, but all obtained relief before the day passed.

Wind of high velocity carried the snow from the road and piled it high along fences and across the roads wherever an obstruction appeared.

Even on North Washington street, near the cemetery, drifts had formed across the road and made automobile driving perilous. The road between Janesville and Evansville, although drifted somewhat, is passable.

On the Beloit-Janesville road, drifts in spots, but it is possible several cars went through Wednesday morning. The road to Ft. Atkinson is drifted but can be traveled. The Janesville-Evansville road, while drifted somewhat, is passable.

HOT RETORTS IN BOK PEACE PROBE AT WASHINGTON

Washington, D. C.—There were several sharp passages today between Senator Reed and Senator Caraway, democrat, Arkansas, who is in charge of the policy committee of the Bok award, insisted upon her right as a witness to respond with questions propounded by the Missouri senator, during the Bok peace award investigation.

Senator Reed opened the phase of the inquiry by asking Miss Lape for an explanation of her own attitude on the league. She replied that she was not a supporter of the league in 1919, but that she had been an adherent of the league in her "own mind." Later she added that she would be for the league with the reservations proposed in the senate.

Senator Caraway, however, insisted, in his organization of the policy committee, and the jury of award, that the committee had not been considered in any way.

"Did you know of any person on the jury of award of who was against the league of nations?" asked Senator Reed.

"I did not know whether they were for or against the league, for, as I have said, their attitude was not taken into account when they were selected."

When Senator Reed again pressed his question, Senator Caraway interrupted to say that considering the intelligence of the jury of award, it would be naturally to expect that they would be in some kind of a league."

Senator Reed retorted that this was a matter of opinion.

Senator Reed, then, let's up.

Miss Lape several times appealed to Chairman Moses for permission to answer Senator Reed's questions in her own way and Senator Caraway protested that the committee was not authorized to go into the subject.

Finally Senator Reed said he would not press the question further, as he thought Miss Lape's responses spoke for themselves. The committee then adjourned the hearing until next Tuesday, instructing Miss Lape to be on hand with communications between Mr. Bok and herself and concerning selection of the jury of award.

Senator Caraway explained the method of selection of the policy committee and the plan already published of presenting the plan to various organizations.

(BY ASSOCIATED PRESS.)

New York—Charles S. Whitman, chief defense counsel when Anderson was taken yesterday, was in the midst of a whirlwind cross-examination during which he charged that Phillips was a traitor to his country, a blackmailer and an extortionist. Whitman asserted Phillips had been associated in 1916 with several men who had furnished information regarding munition purchases by allies from an employee of J. P. Morgan and company, and had thereafter sold this information.

PRESIDENT URGES CONGRESS TO ACT ON SUGGESTIONS

FIVE POINTS MADE IN MESSAGE FOR RELIEF IN NORTHWEST.

MUST ACT NOW.

Wheat Farmers and Banks in Dakotas on the Verge of Ruin.

(BY ASSOCIATED PRESS.)

Washington.—Five steps for the relief of the agricultural situation in the northwest, some to be taken by congress, some by the executive branch, the government and some by private interests, were outlined by President Coolidge today in a special message to congress.

The steps include:

The reforming of the pressing past due indebtedness of the farmer in the territories most seriously affected;

Financial assistance through a federal agency to enable wheat farmers to make the change from a single crop system to diversified farming;

The extension of the time during which the war finance corporation can make loans;

Bringing Every Resource.

Mr. Coolidge told congress that these were measures "by which, without undue alarm or agitation, but nevertheless promptly and effectively, we can bring to bear on a serious though happily, a localized emergency, every resource of the federal government, and all the assistance which the business and farming community can render."

"The economic situation in certain wheat growing sections of the northwest," the president said at the outset of his message "is reaching an acute stage, that requires organized cooperation on the part of the federal government and the local institutions of that territory for its solution."

Drawing attention to the mention he made of this situation in his message to congress in December he continued:

"Great numbers of individual farmers are so involved in debt both on mortgages and to merchants and banks that they are unable to preserve the equity of their property. They are unable to make the diversified farming, that is fundamentally necessary for sound agricultural reconstruction of the area, and there has been involved the entire mercantile and banking fabric of the regions."

"Not only have there been large numbers of foreclosures on actual farms, but there are great numbers of farmers who are continuing in poverty on sufferance from their creditors."

"There have been large and increasing bank failures. Bills have

CLEANER FAIRS IN THE STATE

Generally Better and Must Be in Order to Gain Popular Favor.

(BY ASSOCIATED PRESS)

Oshkosh.—An appeal for clean amusements at county fairs and for a campaign to "sell Wisconsin" during such fairs was made by State Commissioner of Agriculture John D. Jones, Jr., speaking before the annual convention of the Wisconsin County Fairs association here today.

"The primary function of county and state fairs is to instruct and amuse," Commissioner Jones said. "Each fair must provide amusement along with its instructional features if it would succeed. Unless the fair has amusement, the people will not attend it merely for the instruction along various lines that they receive."

"The greatest requirement of amusement features of county and state fairs is that they be clean. Unclean amusement features will, in the long run, be detrimental to the fairs and may cause them to be considered as places where the people will not want to go. The people will not attend them merely for the instruction along various lines that they receive."

Commissioner Jones expressed the belief that the county fairs in Wisconsin are taking up better and cleaner amusements.

"The great aim of every county fair also should be to 'sell Wisconsin,' he declared. "This can be done by placing before the people the achievements of the commonwealth in the past, its greatness and its possibilities in the future. This end can be furthered by holding co-operation between industrial and other establishments in the vicinity and by securing the support and assistance of such establishments."

Secretary of State Fred Zimmerman will address the fairs convention tomorrow.

Fairs Are Better.—County and district fairs to today offer a clean, elevating form of entertainment and a great educational program, and as uplift forces in the community keep abreast of the times with churches and schools in betterment of the people, according to a statement made today by Charles T. Taylor, secretary of the Wisconsin County Fair Association, here.

The public, Mr. Taylor declared, attends the fair because of this uplift, the high class entertainment means it affords for men to become more progressive farmers, better students of machinery, greater devotees of the art, and the public departs from the fair with a better opinion of the world in progress. The farmer's conclusion is that the result of his toil in the future must come up to the level of his neighbor. He has seen new and better stock, machinery, processes of cultivation, fertilization and all things that count in becoming a bigger and better producer on the farm.

Fair Association Meets.—The County Fairs association convened in annual meeting here today to consider before the annual convention of the Wisconsin County Fair Association, here.

Speakers on the program are: J. D. Jones, commissioner of agriculture; Secretary of State Fred Zimmerman; C. L. Hewitt, state board of girls' club leader; and Mrs. Nellie K. Jones, state leader of home economics clubs.

Minneapolis, N. Y.—William M. Creasy, of Port Thomas Ky., early today was acquitted by a jury of murdering Miss Edith Layoy, a five-year-old girl, in June 1922, in her boarding house after their engagement to marry had been broken. Convicted at the first trial in October, 1922, Creasy won an appeal after nine months in the death house a Sing Sing.

At five minutes after four the jury, after deliberating for almost eight hours, filed into the court room and announced they had reached a verdict. Creasy, as the verdict of "not guilty" was announced almost in the echo of the foreman's voice, died from the silent room, Mrs. Sheldon, school teacher, who had been a room mate of Edith Layoy and who testified against Creasy as one of the chief witnesses for the prosecution sprang from her seat and flung herself at the bewildered Creasy. She placed a resounding kiss on his cheek.

"That kiss gave me a greater shock," the acquitted man said later, "than the announcement of that first verdict against me two years ago."

ITCHING ECZEMA DRIED RIGHT UP WITH SULPHUR

Any breaking out of the skin, even itchy, itching eczema, can be quickly overcome by applying a little Mentho-Sulphur, says a noted skin specialist. Because of its germ destroying properties, this sulphur preparation instantly brings ease from skin irritation, soothes and heals the eczema right up and leaves the skin clear and smooth.

It seldom fails to relieve the torment and discomfort. Sufferers from skin trouble should get a little jar of Rowles Mentho-Sulphur from any good druggist and use it like a cold cream.

Griddle cakes are easy to make if you follow this simple recipe

3 cups flour 1 tablespoon sugar 2 cups milk or water (boiling) 1 teaspoon salt 1 tablespoon butter or substitute 3 teaspoons baking powder Sift flour, salt, baking powder and sugar together. Beat eggs and milk together, add melted butter to this. Gradually stir the liquid into the dry ingredients, making a smooth batter. Heat the griddle. (Some women place a bit of butter

near the outer edge of the griddle. When the batter browns, griddle is hot enough to bake cakes.) Then turn down the flame about one-half. Pour the cakes on hot griddle. When the cakes are full of bubbles, turn and brown on other side.

1,000 NEW STREET SIGNS IN MAKING

City Street Workers Carrying Out Big Job at Pumping Station.

Janesville's dilapidated metal street signs, a popular target for boy stone-throwers for more than 10 years, are doomed to meet an early death with plans for the obsequies maturing rapidly at the city pumping station where 1,000 new wooden signs are being turned out by city street workers. The operations are being carried on as sort of a "rainy day" job, the employees working on them only when their services are not in demand elsewhere.

That a large saving of money will result from the use of wooden signs, turned out by the regular city employees, in comparison to metal signs bought in from some private concern, is assured. When the job is completed, a cost sheet will be prepared to show the saving.

Silver Spruce Used.

Approximately 1,500 feet of silver spruce lumber has been purchased at 7 cents a running foot and this supply is being cut to form the signs. The lumber, one inch thick and four inches wide, has been cut in 16-inch strips and each one painted white. With this done, the strips are being sawed into various lengths according to the sizes needed for the different streets. The longest sign will be 24 inches—St. Lawrence avenue and Washington street—while the shortest one will be for Oak street.

Before erection the ends will be dipped in white paint. Lettering will be in black, with brass stencils three inches high being used. Even the iron for the brackets was bought in job lots and was cut and bent by city employees so that they will be suitable for attaching to telephone poles. Three holes have been punched in each piece and the entire layout of some 2,000 brackets is being dipped in asphaltum to prevent rusting.

Wherever possible the signs will be attached to ornamental lighting posts, and in these cases a different type of bracket will be necessary. The work is being carried out in the pump room of the city pumping plant on South River street under the direction of Street Engineer Joseph Ludwig, Jr. Both the job of tearing down the beat, worn and scarcely legible metal signs, and that of erecting the new ones, will be done by regular city workers. In case of destruction, the wooden sign has an advantage over the metal ones in that it can be quickly replaced.

\$9,800 BUDGET IS VOTED BY Y. W. C. A.

300 Enjoy Annual Banquet—Seven Retiring Directors Re-Elected.

Seven directors whose terms expired this year were re-elected for second terms of three years each and a budget of \$9,800 was adopted by the Y. W. C. A. at the annual meeting Tuesday night following a banquet in the Y. W. C. A. The budget calls for \$600 more than last year's budget, but does not exceed the amount received in last year's drive. The extra amount is needed to meet the expense of activities which have doubled during the year while the employed staff remains the same.

Directors re-elected are: Misses Mary Barker, Eva Townsend, Ruth Jeffers, Madeline Allen, P. Lett, J. Paul Owen, J. K. Jensen and Lewis French. The board will meet Friday night, elect officers and make plans for the coming year. Miss Mary Barker has served as president for three years and under the rules of the association is not eligible for re-election.

Three hundred women and girls attended the banquet Tuesday night. Mrs. L. E. Jackson led some lively community singing, including a song in honor of Miss Barker. The president, Mrs. Glenn Gardner, was the piano accompanist for the song program.

In a short talk Miss Barker expressed her appreciation for the splendid support accorded the association by the citizens of Janesville during her term as president, and for the fine spirit that has prevailed in the board of directors and among the members during this period. She said that she had deemed it a privilege to serve as a leader during the formative years when the aim has been to build the Y. W. C. A. on a good foundation rather than the use of spectacular things. She commended the present employed staff highly.

National Worker Talks. Miss Eleanor Copeland, national worker, gave an address in which she urged that women must stand together for the interests of women in business and industry, and for the highest ideals of living true and being true.

"Too many of us are moving civil wars," said the speaker. "We short circuit ourselves because we don't know how to tune in with other people and with the infinite. We are all bound to make our mark in the world and it will be either a black mark or a white mark. No modern invention can broadcast as fast as our actions."

Activities Are Planned. A unique plan for the demonstration of activities was carried out under the title, "The Y That You Built." Senior Girl Reserves presented a candle light ceremonial which took the form of a farewell for three members who are to graduate from high school this semester. Esther Damerow was presented with a white candle in recognition of one year's membership in the "circle of lights." Bessie Ellis received a rose candle for two years' membership and Beulah Ransom received a blue candle for three years' membership. The camp demonstration was a "Feast of Lanterns" song by Junior High Girls. Other camp demonstrations presented in a clever manner the business and professional women's club, the Y's Owl health education and international friendship.

Senior Girl Reserves did the serving for the banquet. \$1,000 balance on June 1. The annual reports of treasurer and general secretary were printed.

Total of All City Taxes for Year Is Near Million

Figures just compiled by the city department of finance show the total amount of the 1923 tax roll, including general and personal property, income and surtaxes, and all special assessments, to be \$913,327. It is pointed out, however, that the personal property offset to the income tax will cut the amount actually received to approximately \$840,000 or less.	Of the total city tax rate of \$26.62 per thousand dollars of valuation, it is figured out that \$11.09 will go to educational purposes; \$9.53 to general city expenses; \$5.73 to the county; \$1.43 to the state; 68 cents to the vocational school; and 35 cents to the public library.

Episcopalians Meet Next Week

Janesville delegates will attend the annual council of the Episcopal Diocese of Milwaukee which convenes in Milwaukee, Tuesday, Wednesday and Thursday of next week. It is announced by the Rev. Henry Williamson, secretary of the diocese, that the most important matters will come up, one being a canon on reorganization of the business side of the diocese, and another the presentation of a petition from the clergy of the LaCrosse diocese for additional Episcopal assistance and supervision.

Another important question to come before the council will be the request that steps be taken to secure another bishop for the Milwaukee diocese, to assist Bishop Webb, who has served for 18 years. It is argued that the diocese is so large that two bishops are necessary, and the council will have a conference on the whole subject during Wednesday afternoon of the sessions. This is not a new subject, says the Rev. Mr. Williamson, but springs up at recurrent times; in fact it has been talked over for the past 40 years.

Delegates from Trinity parish, elected at the last parish meeting, are: George Richards, J. P. Hooper, H. H. Faust and Mrs. W. P. Sales. At the annual church club dinner Wednesday night, speakers will be: Rt. Rev. Edgar Pawcett, bishop of Quincy; Frank P. Baker, new president of the Milwaukee state normal school; and Dr. Eugene A. Smith, Milwaukee.

Hennessey, court commissioner of Milwaukee and prominent attorney, will give an address at the regular meeting of Carroll council, Knights of Columbus, Thursday night, at the clubhouse, South Jackson street. Mr. Hennessey is well known in K. of C. circles, having been grand knight of the Milwaukee council and past master of the Fourth Degree Assembly.

NEW SPIRIT SHOWN IN HEALTH WORK

Health Department Not Charity Affair, Thought Stressed at Conference.

Marked by a remarkable spirit of cooperation and good will, members of the city health department and representatives of all city schools, including the parochial institutions, held a special conference in the health department offices in the city hall Tuesday afternoon. One of the important thoughts which emphasized was that the health work should be recognized and that the people should be educated to the fact that the health work is a service of all the people and they should be invited to make use of them.

"When we get the clinic started in the city hall we want all the people of the city to feel it is their clinic and to take advantage of it, particularly the mothers of the school age children," said Dr. Fred B. Welch, head of the health department. "It is not a charity project. Right now we are ready to take care of those who want it. We have the necessary health and measured and more work will be done when the clinic becomes established."

Health Education Suggested. Supt. E. O. Holt suggested the adoption of some sort of program by the health department for furthering health education in the schools. Miss Rosemary Wright, attendance officer, urged that the children be taught in homes where children are ill and have been excluded from school.

It was decided to have the new city nurse, Miss Virginia Anderson, make a physical examination of every school pupil in the city and to have permanent records kept of them. This work was begun Wednesday.

During the summer, follow-up work will be done among the children, the whole idea being to enlarge the scope of activities of the health department and thereby bring greater benefit to the people.

The conference was attended by Supt. E. O. Holt, Miss Rosemary Wright, attendance officer, and all city school principals. Dr. Fred B. Welch, city health officer; Dr. L. J. Woodworth, city sanitary inspector; Miss. Hilda Anderson, city nurse; Mrs. Emma J. Manning, member of the city council; and City Manager Henry Traxler.

HUNDREDS SKATE ON SCHOOL RINK

Half of Athletic Field Being Used by Large Number, Many at Night.

Weeks of effort on the part of the fire department and city street workers in making a skating rink at the new high school athletic field, has been partially successful, with from 200 to 300 enjoying skating there daily, many of them taking advantage of the moonlight nights this week for recreation on the ice. Approximately 200 enjoyed the sport Tuesday night, the warm weather of the day having improved the ice surface to a great extent.

While the entire field has been flooded, so far only one-half of it is suitable for skating, but even that much is proving a joy to lovers of the sport as it is the largest and best artificial rink ever made here. The ice on the west half of the field has been scraped of snow and is in good condition generally, although dotted here and there with holes and rough edges which make it necessary for the glider to keep his eyes open lest he go into a nose-dive.

What's the Reason?

In thousands of homes where one or more of the family are nervous and irritable, the cause may be hidden—hard to understand. But usually, "There's a Reason."

Doctors and dietitians are very generally agreed that people who are nervous or suffer with digestive disturbances should not drink coffee or tea because these beverages contain a drug, caffeine, and their use tends to increase nervous irritability.

Many of us just drift into wrong habits of eating and drinking, though we usually know better. So if there are nervous ones in your family, suppose you make a change—serve Postum for thirty days.

Postum is a pure cereal beverage. It furnishes all the pleasure of a hot drink—cheery warmth and good flavor. Postum is refreshing, satisfying, healthful; and there's nothing in all the world quite so effective as health to overcome nervousness and make life worth while.

Postum for Health

"There's a Reason"

Your grocer sells Postum in two forms: Instant Postum (in tins) prepared instantly in the cup by the addition of boiling water. Postum Cereal (in packages) for those who prefer the flavor brought out by boiling fully 20 minutes. The cost of either form is about one-half cent a cup.

Milton Speeding for Whitewater

Milton—Heavy practice for the Whitewater normal game next Thursday was started at Milton college Monday night, when a long line of basket-shooting with emphasis on follow-up shots was followed by a discussion of the faults of Milton's defense of Coach Crumlish. He stressed the fact that the ball should be shot down the floor too slowly and in a scrimmage which followed instructed his men to start the ball down the floor immediately after obtaining possession of it. The work of both the first and second squads showed improvement over last Thursday night.
